

CITY'S KIDS HELP OTHERS GET HEALTHY

PUPILS at four city schools were awarded £1,000 for their work to improve health and wellbeing in schools.

The national Healthy Schools event was held at St George's Hall.

Council leader Warren Bradley presented the cash to pupils at St Cecelia's Catholic Infant School in Tuebrook; Christ the King Catholic Primary in Wavertree; Sandfield Park in West Derby and Childwall Sports College.

Pupils at the schools all won his 'Leaders Challenge' to invent projects or activities which would help and encourage other pupils to become healthier.

Their schemes included allotments, an improved playground and an anti-smoking DVD.

Cllr Bradley said: "I was very impressed.

"Making young people healthier is one of the council's top priorities because if we get them into good habits early on in life they are more likely to continue them."
